SUMMARY

Productive employee with proven track record of successful project management and producing quality outcomes through leadership and team motivation.

EXPERIENCE

Junior Full Stack Developer unemployed

I am an enthusiastic IT student with three years of experience in programming and four years of expertise in computer graphics, CGI, and animation. My diverse skill set includes proficiency in Python, HTML, C#, C++, Java, JavaScript, and CSS. I am passionate about leveraging my technical and artistic abilities to create innovative solutions and engaging visual content. I excel in both the technical and creative aspects of development, enabling me to deliver high-quality, aesthetically pleasing, and functional results.

Throughout my academic journey and personal projects, I have demonstrated a strong commitment to learning and growth. I have consistently sought opportunities to expand my knowledge and skills, from tackling online challenges to mastering new programming languages and tools. My background in animation and computer graphics allows me to bring a unique perspective to my programming projects, seamlessly blending technical proficiency with artistic creativity.

I thrive in dynamic and challenging environments, where I can contribute my expertise and collaborate with others to solve complex problems. My goal is to continue advancing my skills and making meaningful contributions to projects that push the boundaries of technology and creativity.
